Design Head

PCCoE CESA Student Chapter 2020-21

Member of Android Developer Core Team

Google DSC PCCoE 2020-21

School Head Boy

IHIS 2017-18

WORK EXPERIENCE

FLUTTER APP DEVELOPER | SoftEzi Solutions LLP, India

OCT 2020 - DEC 2020

Built a full-fledged cake delivery app that delivers pre-made or custom-made cakes to your location. The app has a dynamic UI and is easy to use. The admin is able to add new cakes, change prices and confirm orders through the website. The app also has a feedback screen through which you can place your complaints. The app uses your mobile number authentication to sign you up for the app.

Apart from this also worked on redesigning other apps to give them a better UI and also helped to debug application having logical or syntactical errors

PROJECTS

ECOMMERCE WEBSITE

A front end react project that allows user to browse and select different items from different categories and place them into their cart. The user can view different items from the cart and change their quantity or remove them.

New users can create their own account and log in with their credentials

SPOTIFY CLONE

A spotify clone that uses spotify API to display all the albums in your spotify public profile. Song tracks from different albums can be selected and played. Tracks can be paused, skipped and reverted. Volume can also be adjusted.

NETFLIX CLONE

A Netflix clone that uses TMDB api to fetch and display posters and description of movies from different genres. It displays movies from trending, top rated and many more categories. Trailer of the respective movie can be viewed by hovering over the poster. It also allows user to login and sign up.

EXTRA CURRICULAR COURSES

Web Developer Mastery

Offered by Udemy

React and Redux

Offered by Udemy
